At its heart lies the transformative odyssey of Ayesha, a High Priestess of Sirius, whose journey traverse's realms both ethereal and earthly.

An epic journey of past lives, interstellar conflict and soulmates Reviewed in the United States on January 16, 2024

"Phoenix Rising: Initiation" is the first novel by Rebecca A. Nagy, as well as the first in her trilogy, The Trybrid Chronicles. It's an intriguing dive into a world of fantasy, eternal love, and spirituality. As someone who lives in Charlotte, North Carolina, where much of the novel takes place, I also enjoyed seeing this very traditional southern city transformed into the setting for the adventure launched in "Phoenix Rising: Initiation." It's a fascinating premise and has me now wondering how soon we can jump into the next book in the trilogy.

Rev. David Hulse, Author of "Take Another Look: A Scriptural Review of Traditional Christian Doctrine", and Spiritual Guide of HeartLight Spiritual Center

Rebecca Nagy's first novel Phoenix Rising Initiation is a timely novel that encompasses Ancient Wisdom, metaphysics, dream exploration, past lives, and interstellar conflict. Woven throughout the book is a romance that covers many lives. Although the book is written as a Sci- Fi Fantasy, it is much more because what is written is also true on many levels. Readers already on a spiritual journey will recognize these truths and readers just beginning their journey will be intrigued to learn more.

I have known Rebecca for a decade or more and know her as a great scholar, a wise spiritual leader, a talented teacher, and a good friend. Congratulations and know that I look forward to the remainder of the trilogy!

Aurora on GoodReads:

A wonderfully creative first novel by Rebecca A Nagy. This one's a little bit Science Fiction adventure, a little bit sorcery and mythical beings, a little bit Y.A, coming out and an action packed romance that doesn't stop from the first page to the last - and that's only book one of the planned trilogy.

This one's well worth reading if you're looking for a new author to fill those long winter nights. <https://www.goodreads.com/book/show/199312476-phoenix-rising>

W. Bradford Swift, visionary fiction author, Write On Purpose Coach, and author of eco-fiction novels.

"From the first page to the last, Phoenix Rising: Initiation is a roller coaster ride through time, space, and the very fabric of the soul. Rebecca Nagy has an incredible gift for fusing

spiritual wisdom with a compelling narrative, creating a rich tapestry that resonates on multiple dimensions of human experience.

With its blend of celestial mysteries, ancient prophecies, and soul-deep love, the book captures the essence of visionary fiction. As a fellow visionary fiction author, I couldn't help but admire Rebecca's skillful storytelling, the depth of her characters, and the vast cosmic playground she has created. From the archetypes of Ayesha and Cassandra to the soulful journey they embark upon, every element in this story rings true to the quest for personal and universal enlightenment.

What makes this debut even more remarkable is Rebecca's own transformative journey, from a fashionista in the world of the most glamorous cities to a spiritual guide and teacher. It's a transformation that imbues every page of her work, making *Phoenix Rising: Initiation* not just an entertaining read, but a spiritual experience in its own right.

This is not merely a book but a potent conduit for personal growth and spiritual awakening, all wrapped up in a narrative as thrilling as it is enlightening. Do yourself a favor—grab a copy and prepare for a literary journey like no other."

Phoenix Rising: Initiation by Rebecca A. Nagy revolves around Cassandra "Cassie" Oberon, whose life takes a turn when she discovers a mysterious mansion in the misty mountains where her true identity as Cassandra St. Claire, a daughter of the Fae, is revealed. Cassie's life is marked by recurring dreams and a unique connection with her cat, Gabriel, whom her mother taught her to communicate with through thought and images. Dark figures like Sirkan, Morgandrian, and Natesh aim to exploit Cassie's extraordinary abilities in a supernatural struggle for her destiny. Meanwhile, Paxton, her boyfriend, and the celestial Khamuel navigate a web of dark situations and adversaries. The Triumvirate and Masonic Lodges plan a rescue mission for Cassie, recognizing her significance as the Seventh Avatar. Cassie's training in the Seely Court unfolds across space and timelines as she and Paxton confront their intertwined destinies, search for her mother, and attempt to stop Sirkan.

Phoenix Rising: Initiation by Rebecca A. Nagy is an exceptionally thoughtful and equally complex work of metaphysical fiction with fantasy elements, particularly in creature and character species, that carves almost its own unique niche within a niche. I found Cassie's arc as she grows into her extraordinary role and trains to harness her latent powers to be authentic. She has, as we are reminded by her stomping and almost fearless ability to assert her agency, the traits of a young woman. Any parent of a teenage girl will see their daughter in Cassie, and as an adult and a mother, I felt protective of her. This emotional connection would not be possible without the skill of deep character development. I also found that the number of men, in past lives and in her current timeline, all seem to think that they have a claim to Cassie. If this is not a symbol of toxic masculinity, then none exists. Cassie is the contemporary evolution of powerful women incarnated in her from alternative timelines, and these are a wonderful complement to an already strong story.

Phoenix Rising: Initiation is a work of fiction in the visionary, sci-fi, fantasy, and adventure subgenres. The work is suitable for the general adult and older teen audiences. Penned by author Rebecca A Nagy, this enthralling epic marries elements of ancient aliens, angels, witches, and vampires into a tale centered around the spiritual odyssey of Ayesha, High Priestess of Sirius. An inadvertent transgression during the fall of Atlantis has cost Ayesha immortality and separated her from her soulmate, Manu. This act sets in motion a complex prophecy that consigns her to the cycle of human rebirths until she can balance her karma by becoming one of the Seven Aquarian Avatars. Cassandra's birth heralds the next stage in human evolution, but she also becomes a target, marking her both as a symbol and a threat.

Author Rebecca A Nagy has crafted a novel that beautifully blends fantastical elements with profound symbolism and reality, guiding readers to reflect on their own life's journey whilst enjoying a truly epic adventure tale. The novel embarks on a spiritual and cosmic journey as Cassandra's initiation approaches, and I was deeply impressed by the mood and atmosphere from the descriptive talents of the writer. As Cassandra navigates self-discovery, destiny, courage, and sacrifice, her narrative mirrors the timeless struggle of humanity, and the plot travels through well-timed peaks and troughs to keep readers compelled but also allow time for reflection. This narrative is an intricate dance between mythos and reality, filled with a confident authorial voice that assures the reader they are in good hands as they watch the characters discover their path. Overall, Phoenix Rising: Initiation kindles the flames of destiny and invites you to rise alongside Cassandra, echoing the essence of humanity's enduring voyage through the crucible of existence.

EXCERPT FROM THE BOOK

She heard a sound ... a deep, primal scream. It sounded like the Earth was keening the loss of its innocence and vitality. The wail grew louder with every passing second. Only when her throat began to ache did she realize the shriek of remorse was her own – the misery of her soul shouting its shame and grief. She was a high priestess of Sirius. To her belonged the responsibility of balancing the energies of Cause and Effect – karma – not just of her actions, but those of all in her sphere of influence who had followed her into battle.

First and foremost, she was a teacher. She knew whatever thoughts or acts she or her students committed against the Codex settled on her – and no one else. Her screech gave way to hoarse sobs, tears cascading from her eyes – a river of remorse for things done...and left undone.

"Mistress, please come, the ships are preparing to depart. We must hurry!"

A handmaiden reached for her arm and tugged her toward the landing platforms at the far side of the plateau. Silver disks were already elevating into the clouds of dust. High above the carnage, she could see flashing, multi-colored lights disappearing into interdimensional portals. The Celestials would lead the human crafts and help to establish new bases, build new homes, start anew.

She pushed to her feet. "Go," she said. "I am right behind you."

She moved as fast as she could – little better than a trudge. The pain in her body was nothing compared to the agony of her spirit. Just before she stepped onto the gangway, she looked around again at the chaos.

Manu stood behind her, a look of horror on his smudged face.

"We need to depart, my love," she said.

She reached for him. He stepped back. No, he recoiled.

"We cannot," he said.

"We must," she said. She swept her extended palm over the blighted landscape. "There is nothing else we can do."

Again, she reached, but this time only with her hand. Again, Manu slipped out of her grasp, his own palm held up like someone trying to stop a child from running into a busy street. His eyes were wide and full of disbelief. He pointed to her.

"Ayesha, is that yours?" he asked.

The High Priestess looked down at her robes, once white, now dyed in crimson from the blood of her victims.

"No," she said. "I am unhurt. This is the blood of those who followed the Dark Priest."

"But human blood, no?"

"Yes," she said. "Those who betrayed us and turned to evil. I had no choice."

"I know," he said, "but surely you have not forgotten the Codex of the Masters of Wisdom."

A look of dismay spread across her face – the dawning of an irreparable mistake.

"The Hierarchy of the Human Kingdom," she said.

"Yes," Manu said. "You have shed human blood. Even now, it stains your sword. It is forbidden for you to come with us."

She stared at the weapon she had forgotten. "I sacrificed my immortality."

He slid past her as one would sidestep a viper. He could not touch her – he could not be tarnished by the stain of her sin.

"My Love—"

She could not finish. Once again, she felt tears on her cheeks.

The gangway retracted. She stepped onto the ground – onto the planet she had once defended – the planet now destined to be her prison.

Manu's face was all she could see. He touched two fingers to his lips and said, "I will come back for you. I will find you in the next life."

And the door to the ship – and to eternity – closed.
